

Year-Round Catalog

Home / Year-Round Catalog

CoSN's online facilitated courses and workshops are designed to provide a rich, interactive learning experience for K-12 edtech leaders nationwide. Led by expert instructors who are adept in their fields, our professional learning opportunities feature regularly updated content to ensure that participants receive the most current and relevant information. Each virtual meeting fosters a collaborative environment where participants learn from the instructor and each other and build relationships. Recognizing the busy schedules of professionals, all sessions are recorded, allowing participants to revisit the material or catch up on missed sessions at their convenience. Additionally, course resources are available for a full year after the course concludes. A key benefit of our courses is the chance for participants to connect with peers in similar roles, greatly enriching their professional networks and fostering a community of shared knowledge and support.
